RECOMMENDATIONS

1. Approve the proposed amendment to the Aquatics Section of the Department of Recreation and Parks' Schedule of Rates and Fees, as detailed in Attachment 1;
2. Authorize and direct the General Manager, or Designee, to amend the Aquatics Section of the Schedule of Rates and Fees to incorporate these changes; and,
3. Authorize and direct the General Manager, Designee, or the Chief Accounting Employee to make technical or clerical corrections as necessary, consistent with the intent of this Report.

SUMMARY

The City of Los Angeles (City), Department of Recreation and Parks (RAP) currently operates seventy-three (73) aquatic facilities including seasonal and year-round pools as well as open water lakes and beaches. The proposed amendment to the Aquatics Rates and Fees Schedule includes: (1) expanding the no charge group to include other City-operated youth programs and camps, and (2) simplifying the permit charges for training group uses.

Day Camp/Group Use

The proposed amendment will revise the no-charge group to include other youth programs and camps operated by the City, including not only RAP day camps, but also programs operated by the Police Activity League (PAL), Police Department Cadet, Fire Department Cadet, etc. When various Cadet and PAL groups use the pools, a uniformed officer is present on the deck. The involvement of these programs at the pools has been a positive and encouraging experience for the local communities and staff. Currently, PAL has youth programs at the Jackie Tatum/Harvard, Central, and several other pools.

Permit Charges for Training Group Pool Use

The proposed amendment will revise the group charges to be based on solely the number of lanes used and not the number of swimmers in a group. This change will simplify the fee

schedule for both the public and staff. It will reduce staff monitoring time, minimize incorrect billings, and streamline the invoice process. Additionally, it will allow a mechanism for staff to develop a charge system for groups such as synchronized swimming and water polo that utilize an area of the pool.

FISCAL IMPACT STATEMENT

There are anticipated savings in staff time used to determine charges and process invoices related to the training group permits.

The schedule of hours of operation is established by the Aquatics staff with the approval of the Assistant General Manager of Operations.

To implement this policy, staff will refer to the priority listing and negotiate with interested permit groups requesting available time.

Permits will be issued for a maximum of six months beginning with January 1 and July 1 of each year and be reviewed in May and November respectively. No permit group shall automatically assume that their permit will be renewed. During each permit review period, new groups may apply that take precedence over existing permit groups or the Aquatics staff may have a program that is desired by the community. The Recreation and Aquatics staff will make a concerted effort to program the swimming pool and issue permits to outside groups to best serve the community.
