RECOMMENDATIONS

1. Approve the Memorandum of Understanding (MOU), substantially in the form on file in the Board of Recreation and Park Commissioners (Board) Office and as attached to this Report as Attachment 2, between the Department of Recreation and Parks (RAP) and the Los Angeles Department of Water Power (LADWP), to provide hydration station installation and retrofit projects at RAP facilities;
2. Approve the signage to be displayed at each hydration station installed as part of the MOU in the form attached as Attachment 3 of this Report;
3. Authorize RAP's General Manager to execute the MOU subsequent to all necessary approvals;
4. Authorize RAP's Chief Accounting Employee to establish a new account and appropriation in Fund 205, Department No. 88, Account No. To be Determined (TBD), with the Account name as Hydration Station Installation and Retrofit; and,
5. Authorize RAP's General Manager, or Designee, to make technical corrections as necessary to carry out the intent of this Report.

BOARD REPORT

PG. 2 NO. 20-048

SUMMARY

Mayor Garcetti's Green New Deal Sustainable City pLAn 2019 states the City agencies intend the following:

1. Install or refurbish hydration stations at 200 sites, prioritizing municipally-owned buildings and public properties, such as parks;
2. Provide drinking water access in the areas of highest need, and install or retrofit hydration stations;
3. Identify priority hydration stations per council district.

In April 2018, a motion was introduced requesting the RAP and the Department of General Services with the assistance of LADWP to report back on the feasibility of introducing and expanding hydration stations at parks and municipal facilities in order to promote the use reusable water bottles and access to clean water (Council File (CF) 18-0301).

In June 2019, the Information, Technology, and General Services Committee and the Health, Education, Neighborhood, Parks, Arts and River Committee requested a written report back with recommendations for hydration station installations, related to the Motion of CF 18-0301. In preparation for this response, RAP conducted a department-wide inventory of existing hydration stations and water fountains (RAP currently has 1,300 drinking fountains with 120 retrofitted into hydration stations). See Attachment 1 for the current inventory of RAP's hydration stations. RAP determined that the installation of future hydration station locations should comply with the following criteria:

1. Evenly distributed among council districts;
2. At major tourist attractions, such as Venice and Griffith Observatory;
3. Universal Play Sites;
4. Maintain water quality;
5. Highly visited/popular locations.

In order to achieve the above-stated goals, RAP has developed an MOU with LADWP for the installation of hydration stations at RAP facilities throughout the City.

SUMMARY OF MOU BETWEEN RAP AND LADWP

The purpose of the MOU (Attachment 2) is to establish roles and responsibilities for the procurement, installation, and maintenance of hydration stations at RAP facilities, and to set forth the terms and conditions of the financial agreement between RAP and LADWP which establishes a repayment schedule and process that will result in the repayment to RAP for the procurement and installation of the hydration stations. The MOU will commence upon execution by both the authorized representatives of LADWP and RAP.

BOARD REPORT

PG. 3 NO. 20-048

Per the MOU, RAP will be responsible for the procurement, installation, and maintenance of the hydration stations, which includes plumbing hardware, replacement parts, and labor. RAP will also be responsible for the cost of water consumed from the hydration stations on its facilities. RAP will schedule regular cleaning and disinfection of each hydration station. Routine cleaning is essential for sanitary reasons, to address vandalism, to keep the hydration station working properly, and to improve public perception.

Per the MOU, LADWP will be responsible for the evaluation of the condition and operability of the hydration stations. LADWP will reimburse RAP for the procurement and labor costs associated with the installation of the hydration station as long as the hydration station is operable and meets the specifications defined in the MOU.

RAP and LADWP agreed to the following installation costs for a maximum reimbursement for each hydration station as follows:

1. Interior Hydration Stations – up to \$5,000
2. Exterior Hydration Stations – up to \$10,000

Both estimates include equipment, materials, labor, and other related costs. Costs vary depending on the amount of plumbing required for selected site location and the amount of repairs required to floors, walls, outdoor concrete, and other improvements related to accessibility. Reimbursements from LADWP will be based on RAP's actual invoiced costs. In order to receive reimbursement from LADWP, RAP will submit a Request for Payment and invoice with receipt to LADWP for the verified hydration station.

LADWP's reimbursements for hydration stations will not exceed \$2,000,000.00 over a five-year period. It should be noted that if the actual reimbursement costs are lower than the maximum reimbursement amount for each hydration station, then RAP can install more hydration stations until the \$2,000,000.00 cap has been reached.

Per the MOU, RAP and LADWP will collaborate on educational signage regarding the hydration stations. Proposed signage to be placed at each hydration station is attached (Attachment 3) for Board approval. LADWP will be responsible for the installation, inspection, maintenance and any necessary replacements of signage at each hydration station installed by RAP as part of the MOU. Changes to the signage from that depicted in Attachment 3 shall be submitted to the Board for approval prior to its installation.

The MOU between RAP and LADWP will expire in 2035, or earlier upon establishment of different requirements for the installation of hydration stations throughout the City under the City's Hydration Station Initiative Program.

The proposed MOU between RAP and LADWP was presented to the Facility Repair and Maintenance Task Force (Task Force) on March 5, 2020. The Task Force recommended that the proposed MOU between RAP and LADWP move forward for the Board's consideration.

BOARD REPORT

PG. 4 NO. 20-048

ENVIRONMENTAL IMPACT

The proposed MOU does not include details on future locations of the proposed hydration stations which would allow staff to provide a determination pursuant to the California Environmental Quality Act (CEQA). Therefore, the environmental impact of the installation of new hydration stations under the MOU will be submitted to the Board for determination when more details become available.

FISCAL IMPACT

Approval of this MOU will have no fiscal impact on RAP's General Fund.

STRATEGIC PLAN INITIATIVES AND GOALS

Approval of this Board Report advances RAP's Strategic Plan by supporting:

Goal No. 5: Ensure an Environmentally Sustainable Park System

Result: The installation of new hydration stations in RAP facilities throughout the City will promote the use of reusable water bottles.

This Report was prepared by Meghan Luera, Management Analyst, Planning, Construction and Maintenance Branch.

MEMORANDUM OF UNDERSTANDING

BETWEEN

THE
CITY OF LOS ANGELES
DEPARTMENT OF RECREATION AND PARKS

And

THE
CITY OF LOS ANGELES
DEPARTMENT OF WATER AND POWER

FOR HYDRATION STATION
INSTALLATION AND RETROFIT PROJECTS
AT RECREATION AND PARKS FACILITIES

INTRA-CITY MEMORANDUM OF UNDERSTANDING BETWEEN CITY OF LOS ANGELES DEPARTMENTS OF WATER AND POWER AND RECREATION AND PARKS

This Memorandum of Understanding (MOU) is mutually agreed upon by the City of Los Angeles (City) acting by and through the Department of Water and Power (LADWP) and Department of Recreation and Parks (RAP), effective upon the date approved by the Board of Water and Power Commissioners (LADWP Board) and the Board of Recreation and Park Commissioners (RAP Board) of the City of Los Angeles.

RECITALS

WHEREAS, LADWP is a proprietary department of the City organized under the Los Angeles City Charter (Charter) with a mission to provide clean, reliable water and power to the residents of Los Angeles; and

WHEREAS, RAP is a department of the City organized under the Charter with the power and duty to, among other things, establish, construct, maintain, operate and control all parks and recreational facilities of the City for the benefit of the public and cooperate with other public agencies and organizations to promote public recreation; and

WHEREAS, the Charter and Administrative Code Section 679 (c) (5) authorizes the LADWP to appropriate, transfer or expend the money in the Water Revenue Fund and Power Revenue Fund for the promotion of any of its products and services, as well as for the promotion of conservation; and

WHEREAS, expanded products and services set forth in this section will provide benefits to the City and will not interfere with the role of the LADWP as a provider of water and power to the City's inhabitants; and

WHEREAS, the LADWP is further authorized to sell water-related products and services pertaining to water delivery, water quality, water storage, metering, water audits and the design, procurement, installation, operation, and maintenance of water related equipment and systems to any person or entity within its retail service areas; and

WHEREAS, Mayor Garcetti's Green New Deal Sustainable City pLAn 2019 states that City agencies intend to:

- (1) Install or refurbish hydration stations at 200 sites, prioritizing municipally-owned buildings and public properties such as parks.
- (2) Provide drinking water access at five sites in the areas of highest need and install or retrofit hydration stations at municipal buildings;

- (3) Identify priority hydrations stations per council district for retrofit; prioritize large municipal buildings and LADWP customer service centers; and develop strong community outreach and education programs on tap water quality; and

WHEREAS, the combined efforts of LADWP, RAP, and other agencies will help achieve the above-stated goal; and

WHEREAS, the installation of hydrations stations at facilities controlled by RAP as contemplated under this MOU will further the recreational benefits to the public using RAP facilities, and the execution of this MOU by RAP has been approved by the RAP Board pursuant to Board Report Number _____; and

WHEREAS, the People of the City and the environment will benefit from increased access to clean, tap water; and

WHEREAS, this MOU will result in the RAP being reimbursed for the cost of the hydration stations hereinafter referred to as the Hydration Station Initiative Program (HSIP), from the LADWP. Reimbursement of funds for hydration station projects is authorized by the LADWP Board of the City Resolution Number _____ and its verbal motion.

NOW, THEREFORE, RAP and the LADWP commit to identifying and implementing the installation of hydration stations at certain RAP facilities identified by RAP in accordance with the provisions set forth below in this MOU.

ARTICLE I – THE MOU

A. PURPOSE OF THE MOU

To establish roles and responsibilities for the procurement, installation, and maintenance of hydration stations at RAP facilities.

To set forth the terms and conditions under which the financial agreement between LADWP and RAP regarding the HSIP will be implemented.

To establish a repayment schedule and process that will result in the repayment of the HSIP to RAP.

B. EFFECTIVE DATE OF THE MOU

This MOU will commence upon execution by both the authorized representatives of the LADWP and the RAP.

C. REPRESENTATIVE PARTIES OF THIS MOU

The representatives of the respective parties who are authorized to administer this MOU and to whom formal notices, demands, requests, and communications shall be given are as follows:

For the LADWP:

Martin L. Adams
General Manager and Chief Engineer
Los Angeles Department of Water and Power
111 North Hope Street, Room 1550
Los Angeles, CA 90012

For the RAP:

Michael A. Shull
General Manager
Los Angeles Department of Recreation and Parks
221 North Figueroa Street, Third Floor
Los Angeles, CA 90012

D. DEFINITIONS

Hydration Station – any device that dispenses drinking water and must include a bottle filling mechanism or allow for bottles to be filled. All references to “hydration station” in this MOU shall refer only to those hydration stations that are installed pursuant to the terms of this MOU as part of the HSIP.

ARTICLE II – RAP

RAP will do the following:

1. INVENTORY.
 - 1.1 RAP will maintain inventory of new publicly accessible hydration stations on their facilities, and make it available to LADWP upon request.
2. HYDRATION STATION PROCUREMENT, INSTALLATION AND MAINTENANCE.
 - 2.1 RAP will be responsible for the procurement, installation and maintenance of the hydration stations, which includes plumbing hardware, replacement parts, and labor.

- 2.2 RAP will purchase hydration stations (indoor hydration stations will be equipped with a chiller, if feasible); install hydration stations at a RAP designated location close to the water main or on a high use line to prevent/limit water stagnation; and for indoor units with chillers, ensure they are operable.
3. WATER CONSUMPTION AND COST
 - 3.1 RAP will be responsible for the cost of water consumed from the hydration stations on its facilities.
4. CLEANING AND DISINFECTION
 - 4.1 RAP will schedule regular cleaning and disinfection of each hydration station. Routine cleaning is essential for sanitary reasons, to address vandalism, to keep the hydration station working properly, and to improve public perception.

ARTICLE III – LADWP

LADWP will do the following:

5. EVALUATION.
 - 5.1 After RAP installs the hydration stations, LADWP shall assess the condition and operability of hydration stations installed under the provisions of this MOU.
 - 5.2 LADWP shall support RAP's effort to maintain an inventory and evaluations of installed hydration stations in publicly accessible RAP facilities throughout the City of Los Angeles.
6. HYDRATION STATION REIMBURSEMENT.
 - 6.1 LADWP will contribute funds towards the procurement and installation of hydration stations at RAP facilities. LADWP's goal is to promote the use of tap water by providing hydration stations with chillers, if feasible, including promotional signage approved by RAP and LADWP at high traffic areas in public places.
 - 6.2 To qualify for reimbursement, each hydration station must be installed and operable and meet the specifications as defined herein.
 - 6.3 On a quarterly basis, RAP will provide to LADWP a list of hydration stations installed in accordance with this MOU within the 3-month period. The list shall include the site, unique identifier, and installation date for

each hydration station. LADWP will timely and without undue delay verify that the hydration stations were installed and are operable.

- 6.4 After installation of a hydration station, RAP will submit a Request for Payment and invoice with receipt for verified hydration stations. The invoice/receipt shall indicate the site, unique identifier, installation date and verification date for each hydration station. The invoice/receipt shall also include an itemization of costs associated with each installed hydration station (e.g., labor fees and cost of hydration station).
- 6.5 LADWP will reimburse RAP for the procurement and labor costs associated with the hydration station installation. RAP will be reimbursed by Interdepartmental Order. Funds will be transferred into the RAP Account Number _____. LADWP will reimburse \$5,000 for each indoor hydration station and \$10,000 for each outdoor hydration station, not to exceed \$2,000,000 over a 5 year period per the Resolution of the HSIP. LADWP will make reasonable good faith efforts to reimburse the funds within 4-6 weeks of receiving the invoice/receipt. The annual reimbursement estimates are as follows:
 - \$405,000 for the current year;
 - \$450,000 fiscal year (FY) 2020-2021;
 - \$402,000 FY 2021-2022;
 - \$385,500 FY2022-2023; and
 - \$357,500 FY 2023-2024.
- 6.6 All hydration stations installed after January 1, 2019 are reimbursable upon approval of the MOU by both parties.
- 6.7 LADWP will conduct periodic inspections of the installed hydration stations and signage for publicly accessible hydration stations at RAP facilities.

7. HYDRATION STATION EDUCATION AND OUTREACH.

- 7.1 LADWP has the option to install signage for hydration stations which are part of the HSIP.
- 7.2 LADWP will collaborate with RAP on designing the signage, which is subject to approval by both parties.
- 7.3 LADWP will be responsible for initial installation, inspection, maintenance and any necessary replacements of signage at RAP installed hydration stations.

ARTICLE IV – GENERAL PROVISIONS

8. MODIFICATION OF MOU:

8.1 This MOU may be modified in writing by mutual agreement by the LADWP Board and the RAP Board LADWP or RAP may propose amendments. LADWP and RAP agree to meet with each other within sixty days (60) after a modification to this MOU has been requested in writing in order to discuss the proposed amendments.

9. DURATION OF MOU:

9.1 This MOU shall expire in 2035, or earlier upon establishment of different requirements for the installation of hydration stations throughout the City from those requirements set forth in the HSIP.

9.2 This MOU may be extended or amended in writing by mutual agreement of the parties. With the passage of time and use of this MOU, it is anticipated that the provisions of this MOU will be modified and extended to enhance the HSIP.

10. STATEMENT REGARDING BEST EFFORTS

10.1 While this MOU contains non-binding compliance dates, LADWP and RAP pledge to make their best efforts to comply with all of the provisions of the MOU. All parties recognize that no cause of action can arise by the failure of either party to comply with any provision of this MOU. This MOU shall not establish any rights for any third party that is not a signatory to this MOU.

IN WITNESS WHEREOF, each party hereto has caused this Memorandum of Understanding to be executed by their duly authorized representatives.
